Fondsstrategie

The investment objective of this actively managed Fund is to outperform the MSCI Emerging Markets ex Fossil Fuels Index (the "Benchmark") while balancing the aim of qualitatively and quantitatively maintaining greater exposure to the United Nations Sustainable Development Goals (the "SDG") than the Benchmark. There is no guarantee the investment objective will be achieved. The Fund is actively managed by the Investment Manager, meaning that investment decisions are made on a fully discretionary basis. Accordingly, the portfolio holdings may deviate from the Benchmark. This deviation may be material.

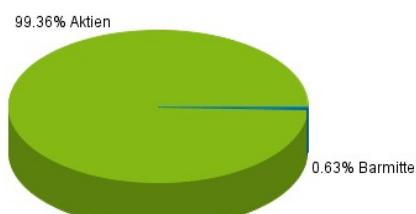

The Fund invests: Primarily in equities and equity-related securities of, or linked to, issuers that are included in the country indices represented within the Benchmark. May invest up to 20% of its total assets in equities and equity-related securities of, or linked to, issuers located in countries not represented within the Benchmark. The equities and equity-related securities in which the Fund may invest will generally be listed on recognised exchanges in OECD or EEA (European Economic Area) countries. The Fund may invest up to 10% of its NAV in equities that are listed on equivalent exchanges (so long as such securities are listed on an exchange in an OECD or EEA country).
